

Donation to the Scholarship fund by the 2010/2011 Special Batch of Department of Statistics and Computer Science

The Special Batch of 2010/2011 of the Department of Statistics and Computer Science donated a sum of LKR 145,000.00 to the Department scholarship fund. The 2010/2011 Special Batch made this generous donation after a decision by them to not hold the Annual Grad Night and to donate money to the scholarship fund instead.

The scholarship fund has been initiated by the Department to fulfill the University requirement for offering two scholarships at the General Convocation for the best performing students in the fields of Statistics and Computer Science. The University requirement for initiating one scholarship is to hold a fund of LKR 500,000.00.

The donation was handed over to Prof. Saluka Kodituwakku, Dean, Faculty of Science at a small function held at the Department followed by a tea party organized by the 2010/2011 Batch.
