## Introduction

The University of Peradeniya is committed to providing high-quality education to all its learners, both full-time and part-time. Therefore, the University has taken all measures to ensure the reliability and fairness of assessments by conducting them in accordance with established standards and guidelines. The standards, guidelines, and practices have evolved over the last 80 years and have become well-entrenched in the University. They were last published in 1977 as a manual, and the new "**Manual of Procedures for Conduct of Undergraduate Examinations**" is a compilation of all the well-established practices and includes recent developments. The procedures and conduct detailed in the new Manual are aligned with the efforts to ensure that all university graduates satisfactorily achieve the graduate profile and intended learning outcomes.

The Manual aims to enhance the quality of assessment practices in all undergraduate study programmes by ensuring validity, consistency, objectivity, comprehensiveness, and the absence of ambiguity in assessments. The guidelines will also ensure that individuals and administrative entities are well-prepared to conduct assessments in a comprehensive manner. In order to achieve the aims, the Manual includes university policies relevant to assessment practices, an overarching comprehensive assessment procedure, regulations relating to examination offences and punishments, duties and responsibilities of examiners, guidelines for moderation, Standard Operating Procedures (SOPs) and relevant templates.

Within the guidelines and procedures stated in the Manual, the faculties and programmes will be able to develop detailed SOPs covering the entire process of assessment. If a faculty wishes to deviate from any overarching guidelines, fresh approval from the Senate and Council must be obtained.

The Manual shall be reviewed, updated, and revalidated by the University every five years. In addition, new SOPs and any amendments to the Manual will be incorporated and uploaded as they are developed.

The University appreciates the contribution of all academic, administrative, and non-academic staff members in bringing out this Manual.

Thus, this policy aims

- to improve the access of students to international programmes to enrich their capacity for learning and research
- to enhance the academic mobility of students across national and international universities
- to facilitate lateral and vertical mobility and progression within higher education and career pathways
- to enhance collaborations leading to such learning and research

***To whom it applies:***

2. Students (undergraduate and postgraduate)

***Key areas to which it applies:***

1. Teaching, learning, and research
2. Undergraduate and postgraduate education
3. Assessments and grading
4. Quality assurance
5. Administrative and other non-academic staff

**Key Policy Principles**

The University shall establish the Policy on Credit Transfer in compliance with the policies, strategies and laws of the national system accepted by the University Grants Commission (UGC) and the Sri Lanka Qualifications Framework.

1. This policy ensures that when students undertake international exchange and other short term educational opportunities, such student(s) are not disadvantaged on their return to the University of Peradeniya. However, it is recommended that students who wish to undertake overseas study must seek prior approval from the Faculty/Postgraduate Institute for the course units to be studied overseas.
2. Required legal documentation must be fulfilled when proceeding with credit transfer programmes. The University may also enter into credit transfer agreements depending on the requirement.
3. Credit transfers to a study programme of a faculty or postgraduate institute shall be allowed only from national and international institutions with an equivalent semester-based course unit system where valid and reliable methods assess learning. Further, students must earn credits after completing the work prescribed at such institutions.
4. Students who wish to transfer credits for courses followed at overseas institutions without prior approval shall also have the provision to transfer credits subject to approval by the respective faculty/postgraduate institute following their return.
5. Students found guilty of misconduct are not allowed to transfer their credits.
6. Appropriate and reasonable time frames for lodging and processing applications should be advertised to students by faculties/postgraduate institutes of the University. Students shall be registered promptly to facilitate credit transfer. Credit transfers will not be allowed if the said study programme had been completed ten years prior to the date of application for credit transfer.

7. The approval of the Faculty Board with the recommendation of the relevant Department/s (or approval of the Board of Study in the case of Postgraduate Institutes) is required for credit transfers. Students who apply for transfer of credits shall present the original transcripts from respective universities and detailed course specifications (course description, learning outcomes and assessment scheme, etc.). If the original documents are in a different language other than Sinhala, Tamil, or English, an official signed/stamped translation of such documents shall be submitted along with the originals.
8. If formal arrangements such as memorandums of understanding/ agreements exist between the University of Peradeniya and the overseas institutions, such information relevant to an applicant's credit transfer shall be verified from official sources.
9. Follow-up during the processing of credit transfer applications – The applicants should be able to get information about the progress of their application and obtain information on any alternatives (if applicable) if the application is rejected.
10. Avenues of Appeal – Grounds for appeal and appeal procedures should be specified and explained clearly to the applicants. The appeals procedure should be consistent across the faculties and postgraduate institutes of the University
11. The maximum number of credits that a student can transfer shall amount to not more than one-third of the total number of credits of the relevant study programme at the University of Peradeniya. For research degrees, credits shall be earned by students after successful completion of the work prescribed by the overseas institution and completing the relevant assessment of learning.

## Definitions

- **Credit:** The volume of learning at each level is described in terms of credits. A whole number indicates the number of credits per course unit or module. According to the Sri Lanka Qualifications Framework (SLQF), the minimum number of credits per course unit or module is one. One credit is considered equivalent to 50 notional learning hours of learning for a taught (with direct contact) course, laboratory studies course or field studies/clinical work. For industrial training, including time allocated for assessments, and for research, including time allocated for literature survey, one credit is considered equivalent to a minimum of 100 notional hours of learning. The student workload of a study programme is defined as 1500 notional learning hours per academic year. [Ref: [https://www.ugc.ac.lk/attachments/1156\\_SLQF\\_2016\\_en.pdf](https://www.ugc.ac.lk/attachments/1156_SLQF_2016_en.pdf)]

According to the European Credit Transfer and Accumulation System (ECTS), one credit in Sri Lanka's system equals two credits in the ECTS.

- **Notional learning hours:** Notional learning hours include direct contact hours with teachers and trainers, time spent in self-learning, preparation for

assignments, and carrying out assignments & assessments. The need to undertake any or all of these within a course/module will be considered when credits are allocated to respective courses/ modules when the curricula are designed.

It is understood that the combination of learning activities may vary from one-course unit or module to another.

In designating the number of credits to a particular course unit/ module, its workload should be computed based on the total amount of learning activities a student is expected to complete in order to achieve the foreseen learning outcomes, and the workload expressed in time should match the number of credits available for the course unit or module.

- **Short term educational opportunities:** Include all teaching, learning and research activities (with or without accumulation of credit value) conducted at a university, which will not lead to a degree but shall be considered as a partial requirement (or substituents) for completing a degree. These include but are not limited to: summer school (or equivalent) programmes, short courses, certificate programmes, international student and /or staff exchange and mobility programmes, short term collaborative research, and special audit studentships.
  
- **Overseas institutions:** include,
  1. foreign institutes of higher education that are denoted by the following names: University, College, University College, Campus
  2. international research institutes (not focused on undergraduate and postgraduate teaching as their main purpose)

### Overview:

The staff members of the university engage in a wide range of activities relevant to the designations and disciplines to which they are attached. The University recognizes the involvement of its staff with other parties in different activities and the advantages delivered by such activities to the University and the local and global community. Situations of conflict-of-interest can arise when the interests, both actual and perceived, of the staff member and the other related parties (hereinafter referred to as individuals) who are involved in a particular activity differ from the interests and primary obligations of the University as an institution. It is essential that all relevant individuals of the University avoid or manage situations of conflict-of-interest effectively and transparently and also be seen to avoid or manage those effectively and transparently.

The University trusts the ability and predisposition of its staff members to conduct themselves according to the principles/norms of professionalism, justice, fairness, and loyalty. Any failure on the part of staff members of the University to ensure such conduct could have dire consequences for both the institution and the concerned individuals. While the University affords its staff members the freedom that they deserve and require to effectively discharge the services expected of them, the University also recognizes the need to adopt a mechanism to protect itself and its staff members from such consequences. The Policy on Conflict-of-Interest is aimed at defining the official stance of the University of Peradeniya with regard to the notion of conflict-of-interest and provide a framework within which to manage situations of conflict-of-interest.

---

*As per Part VI, Section 33 of the Universities Act No. 16 of 1978*

- **Overall Policy Statement:** The University of Peradeniya trusts the ability and predisposition of its staff members to conduct themselves according to the principles/norms of professionalism, justice, fairness, and loyalty and is predisposed to protect its dignity and ensure that all individuals/parties who/that are engaged with the University are treated in a just and fair manner.

This policy shall be reviewed every five years to maintain its relevance and validity.

### **Scope and Application:**

This Policy defines the University’s position on the notion of conflict-of-interest. It also aims at raising awareness among the individuals in order to prevent situations of conflict-of-interest and to allow effective management of such situations. And the Policy outlines a framework to deal with situations of conflict-of-interest.

#### **1. Scope of the policy:**

- a) The University acknowledges the possibility of the individuals being in situations of conflict-of-interest. All the individuals are expected to identify the actual/potential/perceived situations of conflict-of-interest and then declare them and ensure that they are managed in a manner that is acceptable to the University.
- b) The University of Peradeniya recognizes the following situations/processes, among others, as ones where there is a high likelihood of situations of conflict-of-interest arising: recruitment processes; examination-related duties; research supervision; involvement in projects, activities with financial benefits to university staff members; processes involving tender decisions; contract management; getting appointed to executive/administrative positions; processes involving legal decisions and proceedings; policy making; processes involving the formulation of agreements and partnerships, activities in relation to research, development and innovation; provision or acceptance of donations; engaging in consultancy; the preparation and adoption of MoUs and contracts; and contributions to key decisions at meetings (boards, councils, etc.) particularly those of far-reaching consequences.
- c) The policy provides a framework to be used by the relevant authoritative bodies tasked with handling situations of conflict-of-interest in managing such situations, in a manner that the credibility of the University in the eyes of the public is always affirmed and upheld.
- d) It is expected that this Policy will uphold the credibility of the University, which will in turn enhance the University’s chances of securing collaborations and partnerships that benefit the institution, the members of its community, and also the broader public.

2. **Application:** The “individuals” referred to in the policy statements include the following personnel of the University of Peradeniya:

- a) all permanent and contract/temporary staff members of all levels,
- b) outside individuals who serve on different boards, management committees, and councils,
- c) outside individuals who perform collaborative activities with staff members of the University, and
- d) outside consultants and any individuals or groups undertaking activities for or on behalf of the University.

### **Key Policy Principles**

1. The University accepts that the effective and transparent management of situations of conflict-of-interest is fundamental to ensuring the credibility of both the University as an institution and also all the individuals involved.
2. All individuals/affiliated to the University shall place the public interest above their private interests when carrying out their official, University-related functions and duties (actual conflicts of interest).
3. The individuals shall not allow themselves to get into situations where outside interests may come into conflict or appear to come into conflict with the interests of the University (potential conflict of interest).
4. The individuals shall always conduct themselves in a manner that does not lead to any suspicion that the decisions that they make as individuals affiliated to the University have been influenced by personal/financial/other interests (perceived conflicts of interest).
5. The staff members shall avoid and be seen to avoid, engaging in outside activities that are in violation of the values and principles that the University upholds and/or compete with the activities undertaken by the University.
6. All individuals shall conduct themselves with complete neutrality and professional integrity, with regard to matters related to the University.
7. All individuals shall be responsible for avoiding situations of conflict-of-interest wherever and whenever possible; identifying potential situations of conflict-of-interest, declaring and/or reporting such situations; and managing any actual, potential or perceived conflict of interest that applies to them.
8. The individuals shall always disclose relevant situations/positions/circumstances before they engage in an activity, if they are in doubt whether such activity embody a conflict-of-interest.
9. The primary obligation of determining whether an individual is in a situation of conflict-of-interest shall rest with that individual. In the event that an individual feels that he/she is in a situation of conflict-of-interest or a position that could potentially lead to a situation of conflict-of-interest, he/she shall be under obligation to declare that to his/her immediate superior with regard to the

relevant activity and seek her/his opinion regarding whether the situation constitutes a conflict-of-interest. If the superior officer consulted does not feel that he/she is able to determine if the situation in question constitutes a conflict-of-interest, or if the individual is not satisfied with the opinion of the superior officer for some reason, then the matter should be referred to the next level in the management structure.

10. The University is of the view that a full disclosure of any conflict-of-interest followed by credible, genuine, and effective measures in managing and monitoring the situation are the key steps in preventing and resolving such situations. The University considers that a full disclosure demonstrates good faith on the part of the staff member and shall be used to protect his or her reputation and that of the University.
11. A declaration of an actual/potential/perceived conflict of interest in itself shall not necessarily restrict or preclude an individual from engaging in the relevant activity. The process of disclosure and careful fact-analysis may clarify doubts on the activity and may later be deemed acceptable and permissible.
12. Individuals shall regularly review the relationship between their private interests and their university duties in order to identify any changes in relation to the notion of conflict-of-interest.
13. The University shall have a proactive approach to assessing and managing the risks involved in situations of conflict-of-interest. Under this Policy, the University shall develop further guidelines to be followed when engaging in high-risk activities and shall commit itself to enforcing the relevant existing laws, rules and regulations to the maximum extent possible.
14. On request, the University shall accept declarations on situations of conflict-of-interest in a confidential manner; however, the declaration and a report on the decision with regard to the declaration shall be archived by the relevant officer (the Deputy Registrar, Senior Assistant Registrar/Assistant Registrar) in case of Faculties/Institutes, and a relevant officer identified by the Registrar in case of the other Divisions/Units/Centres of the University. All other regular declarations shall be archived along with the relevant documents/files
15. Individuals shall follow one or a combination of mitigation strategies listed below in managing situations of conflict-of-interest:
  - a. relinquishing the private interests by the concerned individual;
  - b. restricting the involvement of the concerned individual in the relevant activity;
  - c. employing a disinterested third party to oversee the activity in question;
  - d. removing the concerned individual from the activity in question if the conflict cannot be managed using the above strategies.
16. The University shall establish and maintain a mechanism and procedures for individuals to declare conflicts of interest and to assess the seriousness of the declared **actual/potential/perceived** and **direct/indirect** conflicts-of-interest.

The University shall make it mandatory for its employees/partners to declare any conflicts of interest particularly in the case of high-risk activities. The declaration form shall contain specific instructions for completing and submitting the form and outline a plan for managing situations of conflict-of-interest (as of #15).

17. In entering into MOUs, agreements and contracts, the identified interests of all the individuals shall be considered, analysed, and documented. Any doubts shall be referred to the Legal Division of the University and decided based on its clarifications and adjudications. The decision shall be fair by all involved individuals based on available legal provisions. And in such mutual contracts the University, its staff members and students shall experience no or minimum damages or losses.
18. All officers of the University, Directors, Heads of Departments and Administrative and Financial Officers shall sign a conflict-of-interest declaration form on the appointment, and they shall review the validity of their declaration annually.
19. When reports of apparent/perceived conflict of interest, failure to manage those or complaints of potential breaches are received, the University shall address it with the relevant individuals transparently and collaboratively through relevant authorities such as (Registrar, Directors of Centres, Directors of Institutes, Deans of Faculties, the Deputy Vice-Chancellor, and the Vice-Chancellor).
20. The DR/SAR/AR of the Legal Division shall be contacted in a dispute for further clarification. When a collaborative solution is not possible and a breach or a potential breach is apparent to the legal Division, the Vice-Chancellor shall appoint a review panel to review the dispute in relation to the disputed conflict-of-interest and the report be submitted to the Registrar, the Vice-Chancellor or the University Council depending on the involved individual. The University Council shall exercise powers and authority vested in it to judge the seriousness and take appropriate actions within available legal provisions.
21. The University shall promote awareness on conflict-of-interest and related policies and processes among all individuals attached to the University

### Overview

Monitoring and reviewing student progression is paramount to ensure the attainment of teaching aims and learning outcomes at the course and programme levels. This, in turn, would guarantee that students reach academic excellence at the end of their study programme. Other than the teaching and learning strategies, student support mechanisms such as counselling, career guidance, mentoring, welfare facilities and financial assistance will also contribute enormously to student progression. This Policy on Student Progression documents the University's continuous commitment to facilitating students' academic progress and ensuring that they timely complete the study programmes per the predetermined award requirements stipulated in the rules and regulations of respective programmes.

The Council shall review and confirm the policy every five years to maintain its relevance and appropriateness. The Council, at its discretion, shall have the power to exercise any or all clauses of this policy. The Council shall interpret, modify, or make amendments to the policy from time to time when necessary.

### Scope and Application

Student progression is a process in that students pass the required courses and fulfil the requirements for graduation with minimal or no dropouts. The faculty should review students' grades at the end of each semester to determine their progress in the enrolled programme. It is essential to ensure that a student completes a particular programme of study during the stipulated period. The examination and assessment systems must keep pace with contextual changes and benefit students without compromising standards. A review of student progression enables identifying students with poor academic performance and attainments and provides an opportunity to offer them support and advice to improve their academic performance, progress, and attain learning outcomes.

This policy aims to ensure that student progression is effectively monitored throughout the study programme and that appropriate actions are taken when necessary to ensure the smooth progression of students through the academic programme with stipulated durations.

The Policy on Student Progression shall apply to;

*Manual of Procedures for Conduct of Undergraduate Examinations, University of Peradeniya, Sri Lanka (Oct 2023)*

- All students admitted to undergraduate and postgraduate programmes of the University of Peradeniya. This policy does not apply to students admitted to elective and exchange programmes.
- Teachers of all study programmes
- All faculty Boards, Boards of Studies and the Senate

A-	3.7	C-	1.7
B+	3.3	D+	1.3
B	3.0	D	1.0
B-	2.7	E	0.0
C+	2.3		

- |   |   |                            |
|---|---|----------------------------|
| C | Unless the Faculty Board determines a sitting of a candidate at an examination as a first attempt, a grade higher than C shall not be awarded at subsequent attempts. | Grading in repeat attempts |
| D | To pass a course, a candidate shall achieve a minimum grade of C (unless otherwise a grade is specified by the  | Requirement to Pass        |

examination rules and regulations of the study programmes).

$C_i$  = the number of credit units of the  $i^{\text{th}}$  course

- G Each study programme shall stipulate specific requirements to allow progression through the programmes in the rules and regulations applicable to the study programme. Progression through the study programme

- H The Cumulative GPA (CGPA) of each student for the entire study programme shall be calculated after completing all requirements of the degree, applying the formula given in F to the performances of all courses in the study programme. If another weightage is added based on the academic year/level (i.e., unequal proportions for different years of the academic programme), the CGPA shall be calculated as follows. CGPA

$$\text{CGPA} = \frac{\sum (a_j T_j P_j)}{\sum (a_j T_j)}$$

where

$a_j$  = proportional contribution of each year

$T_j$  = total course units credited in the year  $j$ .

$P_j$  = GPA in year  $j$ .

- I The classes will be awarded as given below based on the CGPA values rounded to two decimal values as prescribed by the UGC circular number 901 and subject to other requirements specified in the rules and regulations applicable to the study programmes. Award of classes

<u>Level of Performance</u>	<u>CGPA</u>
First Class	$\geq 3.70$
Second Class (Upper division)	3.30-3.69

Second Class (Lower Division) 3.00-3.29

Pass 2.00-2.99

- J For non-GPA courses (the courses of which the performance is not considered in calculating the CGPA/determining the eligibility for a Class), the candidates' performances on attaining the ILOs may be graded as pass/fail without assigning a letter grade as of 2.1.3.2, B (see 2.3.1.5).

## 2.1.4 Continuous Assessments

## **Part 04**

### **Definitions, Duties and Responsibilities of Different Types of Examiners and Their ToRs**

## 4.1. Appointment of Examiners

### 4.3. First Examiner/s

The member/s who teach/es the content and affiliated to the faculty shall be appointed as First Examiner/s. If a person who teaches the content is not available for examination duties, another competent person can be nominated by the Faculty Board to the Senate to be appointed as the First Examiner. The First Examiner can be external if he/she teaches the content. The First Examiner shall mark answer scripts at first. The First Examiner shall often be the Setter of the relevant paper/question/assessment tasks. Chief Examiner may or may not become a Setter/First Examiner.

*\* Note: For an examination paper of a course of study, when the questions are set by several First Examiners, for questions set by one First Examiner, another First Examiner who sets other questions of the same paper can be the Second Examiner.*

#### ***Duties and Responsibilities of the First Examiner:***

1. To set assessment tasks following the Assessment Blueprint/Content Validity Grid as prescribed by the Chief Examiner.

5. Submit the marks and the answer scripts of candidates (***without any marks/drawings on those***) to the Examination Unit/DR/SAR/AR of the faculty before the deadline.
6. Any other appropriate task assigned by the Chief-Examiner.

The purpose of double marking is to assure confidence about the marks assigned to individual scripts or students' assessment work by providing combined academic judgement through the agreement of marks between First and Second Examiners and resolution of problematic cases. The Second Examiner can be an internal or an external member of the University. He/she shall preferably be a person within the discipline examined or a person in a related discipline who is competent enough to use the same marking scheme/rubrics and evaluate the assessment work of the candidates. It may be a person from the same Department or the Faculty.

### ***Duties and Responsibilities of the Second Examiner and double marking:***

1. The Second Examiner shall mark the answer scripts after the First Examiner using the same marking scheme/marketing rubric and shall be blind to the marks and feedback of the First Examiner during marking.
2. Preferably, all scripts shall be double marked. *Double marking means this*, which is the best practice.

## **Part 05**

### **Moderation of Assessments**

## 5.1. Introduction to Moderation

### 5.1.1. The Purpose of the moderation:

Moderation is a process that ensures appropriate standards from designing the assessment to confirmation of the marks/grades by the Board of Examiners. It refers to a range of procedures conducted by an academic member/staff/Board to ensure that assessment tasks and marking are accurate, consistent, appropriate to the level of the assessment, ILOs & PLOs, and comparable with equivalent examinations in other institutions that offer similar study programmes. It will also contribute to continuous enhancement of assessment practices and ensure equality, fairness, accuracy and consistency in providing grades, awards & feedback. Moderation is a process that ensures the quality and relevance of graduates in relation to requirements of stakeholders.

A faculty shall have Faculty Board approved policies and forms of moderation for different types/components of assessments to ensure the proper operation of moderation processes. In addition, moderation methods shall be communicated to staff and students in appropriate forums. The Course-Coordinator/Chief-Examiner/HoD shall ensure that the moderation of assessments occurs as agreed and keep documented as defined by faculty policy. The Curriculum Committee/Academic Development and Planning Committee of each faculty shall be responsible for designing necessary specific SOPs under these guidelines and that shall be monitored by the IQAC.

### 5.1.2. Best Practices for Effective Moderation of Assessments

#### A. Moderation of setting assessments

- a. Presence of an External Moderator (=External Examiner)
- b. Presence of a specially appointed Internal Moderators
- c. Preferably moderation to done by a Moderation (Scrutiny) Board (e.g., Pre-Scrutiny & Final Scrutiny Boards) that include the Chief Examiner, Other Examiners (setters), and internal & external moderators

**B. Moderation of marking and grading**

- a. Presence of an External Moderator (=External Examiner)
- b. Presence of double marking/sample double marking
- c. Preferably moderation to be done by a Moderation (Results) Board (e.g., Pre-Results & Final Results Boards) that include the Chief Examiner, Other Examiners (setters), and internal & external moderators

## 5.2. Moderation of Setting

### 5.2.1. Recommended Strategies in Moderation of Setting

- A. Appoint examiners early in a semester (as detailed in this Manual) to ensure that there would be ample time for the process to take place covering the continuous assessments as well. *All components of continuous assessments (in-course assessments) with a summative value are under the same Examination Rules & Regulations and Disciplinary Procedures for both candidates, examiners and any other person involved.*
- B. Presence of an External Moderator as an ***overall quality controller*** of the assessment of a course/courses in a semester. (Please see the role/ToR of the External Moderator below under the section #### as per international practices on external moderation (*Note: external moderator is traditionally identified as External Examiner in the United Kingdom and some other countries*)).
- C. Presence of a specially appointed Internal Moderators. Internal moderators shall specially check the content and model answers/marketing schemes as subject experts
- D. Moderation by a Moderation/Scrutiny Board (Pre-Scrutiny & Final Scrutiny Boards) that include the Chief Examiner, other examiners of the course, and internal and external moderators.
  - \* It is essential to appoint the individuals early in the semester so that the process can take place well in advance
  - \* If Moderation/Scrutiny Boards is the practice of a faculty, it is important to have several Pre-Scrutiny/Moderation Board meetings covering different components, especially continuous assessments, as early in the semester to maintain the overall quality as much as possible.

### 5.2.2. Concerns to be Addressed in Moderation of Setting Regular Examinations/Timed Assessment Work

*(Please find the template given in Annexure 8.19 for moderation)*

Whether the candidates are aware of a reasonable duration & vigour that the Examiner think adequate for the completion of the task at their level so that they will not spend too little or too much of time on a given task; so that they will not sacrifice their time and energy that should get well distributed across all courses/modules.
- F. Whether there is any significant overlap/similarity with tasks set in the past (*this is a good practice in designing out plagiarism rather than testing/worrying about plagiarism*).

## 5.3. Moderation of Marking and Grading

### 5.3.1. Concerns to be Addressed in moderation of marking to ensure validity

*See Annexure 8.20*

- A. Whether marking within assessment components is consistent.

- E. Whether the examiners have used the full range of marks in assessing.
- F. Whether differences in academic judgements or procedural irregularity in marking are acknowledged, recorded and addressed.
- G. Whether the study programme-specific marking scales and criteria have been used consistently.
- H. Whether appropriate feedback has been provided at the assessment component and course level to help students to learn and justify the marks awarded.
- I. Whether assessments are in line with course ILOs.
- J. Whether marks of all components have been totalled and correctly inserted onto the spreadsheet.
- K. Whether the spread of marks is appropriate and comparable to other courses and that of the same course in previous years.
- L. Whether the descriptive statistics are appropriate (mean, median, mode, SD etc.) [based on prior experiences and expected attainment of ILOs].
- M. Whether the form of scaling/standardization used (if necessary) is appropriate and yields valid grades.

### 5.3.2. Recommended strategies in moderation of marking and grading

Methods of moderation of marking must be robust enough to give reasonable assurance of standards, and those should be appropriate to the assessment component/task. Where different questions in an examination paper/assessment component are set & marked by different First Examiners, it is recommended that the moderation takes place at the level of each question to serve the purpose. The faculties should decide, document and report what moderation strategies it would adopt to achieve the requirements listed in annexure 8.20 in relation to marking and grading.

- *At least the strategy A and C shall be considered critical steps for any taught course/module/subject that will contribute to the final GPA or the Class of the degree awarded.*
- *Steps A, C & D, shall be compulsory for courses where evaluation of answer scripts is conducted employing panel marking.*
- *Faculties are encouraged to document their practices on each study programme based on these guidelines.*

#### **A. Double-Blind Marking: Minimum standards recommended.**

At least 15%-20% of scripts, and/ a minimum of 10 (& maximum of 50) scripts shall be marked by the Second Examiner (*Some universities advise all scripts to be double marked, which is a best practice but considered that it is a step beyond moderation*).

##### ***Course of actions in double-blind-marking***

- i. If the discrepancy between the first and the second marking is less than 15% for any examination component, the marks of the first Examiner shall be accepted. (*Universities in some other countries advise the tolerable discrepancy to be <5%.*)
- ii. If the discrepancy between the first and the second marking is more than 15% in 33% or more of the double marked scripts (*some universities does not tolerate this much of a difference [15%] even for a single script*), the second Examiner shall mark all scripts and the average mark of first and second examiners shall be used for grading. The Chief Examiner shall decide on this, and the first Examiner shall be informed of this decision.
- iii. When these mechanisms have not led to a resolution, the External Moderator shall be requested to adjudicate the disagreements. The EM shall recommend an action mentioned under item “E” stated under “Duties & Responsibilities of EM (under section 5.4).
- iv. In a dispute, following a thorough discussion, the decision of a Board of Examiners chaired by the Dean of the Faculty shall be the final subject to ratification by the Faculty Board and the Senate.

#### **B. Double-Informed Marking (also called Double-Seen marking)**

The First Examiner marks, and then the Second Examiner marks the full cohort with the sight of the first marker’s marks and feedback. The mark is either confirmed or amended after discussion between markers. **Double-Blind Marking** *is advised unless all scripts are marked by the second Examiner (which is beyond moderation).*

***Double-Informed Marking is recommended in***

- i. reviewing the work of new or inexperienced First Examiner/Setter.
- ii. dissertation /research projects
- iii. as a solution for a severe discrepancy when a sample of scripts are marked by the Second Examiner (recommended by the External Moderator)

**C. Sampled Moderation by Internal Moderators/Board of Moderation  
(Preliminary Results Board Chaired by the Chief Examiner)**

The Internal Moderators/Moderation Board shall review a sample of marked scripts by the First Examiner/Panel of Marking Examiners & the Second Examiner to confirm that the final marks/grades are consistent with the marking criteria and requirements. The sample must be meaningful and random to ensure requirements stated in Annexure 8.20.

The sample must include scripts/assessment work from

- i. several distant grades, including failed candidates and those with A & A+
- ii. any individual candidate(s) where the examiners find significantly difficult to mark

At least 10%-15% of scripts and/ a minimum of 5 (maximum of 30) shall be considered in sampled moderation. The Chief Examiner shall determine the number.

The Internal Moderators/Moderation Board shall not generate a new mark for individual students. Instead, the Moderators/Board shall examine the concerns listed in Annexure 8.20, having already generated marks, graphical distributions & descriptive statistics (mean, median, mode and SDs), question papers, marking schemes/model answers, ILOs and Assessment Blueprint at hand. The moderation process should confirm that the generated grades are valid and fair by all stakeholders. If concerns about marking standards or a systematic error in marking or marks processing are identified, those shall be communicated to the Chief Examiner through Annexure 8.20. These may be handled together if moderation done by a Moderation Board (pre-results) and actions would be taken instantly. Possible actions would vary depending on the concerns raised and may include further moderation, mark adjustments, complete remark of the entire cohort of scripts etc. Any adjustments to marks, if proposed, must be conducted systematically so that all affected work is treated equally and not just the moderated sample.

The Chief Examiner may perform the task of an internal moderator if the person is not a First /Second Examiner. External Moderator (=External Examiner) shall be

consulted or be a mandatory member of the Board when significant decisions are made. The moderation report and the Examiners' response (Annexure 8.20) should be documented and communicated to the Chair (Dean) at the Final Results Board, so the Board shall decide whether to accept the response/treatment to marks/grades or require further actions at the Final Results Board.

### ***Final Results Board***

Once the Chief Examiner confirms the conformity of results to the requirement, the results shall be placed at the Final Results Board. Annexure 8.20 shall be tabled at the Final results Board.

In final year examinations, borderline cases may be considered in determining classes before finalising results during final moderation (Final results Board) per the section 2.3.1.9 of this guide. Each faculty shall specify the guidelines for this purpose.

***\*, This step of moderation of marking shall be compulsory for all courses/modules that will contribute to the final GPA and the Class of the degree awarded.***

### **D. Benchmarking during team/panel marking**

In panel marking, the Chief Examiner shall call a meeting prior to marking to review model answers, marking standards and processes in the context of the relevant marking criteria. In this, a sample of assessments shall be marked by the Chief Examiner/one Examiner and share those with the panel members to establish a benchmark (calibration). Or each marker may mark a sample of papers and then share the marking and feedback with the Chief Examiner and other markers and achieve the calibration.

In moderation, to ensure concerns under Annexure 8.20 by the moderator/Board, the sample shall include scripts of candidates

- i. with several distant grades, including failed candidates and those who received A & A+.
- ii. any individual candidate(s) where the examiners find significantly difficult to mark.
- iii. sample of scripts marked by each panel marker.

### **E. Performances, presentations, or practical examinations**

When assessments (with a summative value) involve performances, presentations or a demonstration of a practical/skill, especially in continuous assessments where results are released to students within the semester, such assessment tasks should be observed by two evaluators with prior agreed and informed marking rubrics. Later

the marks should be moderated using the Annexure 8.20 at least by the Chief Examiner of the course/module with the assistance of the External Moderator if required before releasing results. When the employment of two evaluators is not possible, adjunct best practices such as moderation on student notes, slides, evaluator's notes and audio-visual recordings are recommended.

#### **F. Dissertations and research projects reports**

Dissertation or report assessment shall be subject to full, independent, and anonymous first & second marking (or having two examiners going through the research/project report independently). The Supervisor may also contribute to marking on selected aspects. Each faculty shall have detailed guidelines on pertinent procedures involved.

#### **G. Exemptions from moderation of marking**

The following assessment work of students can be exempted from moderation.

- i. Assessments that have only a formative value
- ii. Assessments of non-GPA course (The Chief Examiner may decide)
- iii. When marking is automated only the concerns of Annexure 8.20 shall be ensured in moderation
- iv. In any other instance that the Senate of the University determines.

#### **Notes on Moderation:**

- Clerical checking and moderation are different
- Each faculty shall have a workflow on moderation (both for setting & marking) covering the specific requirements in line with this Manual and maintain a Faculty Board approved policies and SOP on that.

## **5.4. External Moderator ( = External Examiner)**

An external experienced expert /retired academic /someone with professional expertise, experience and competence in assessment-related matters and in a related (broader) discipline shall be appointed as the External Moderator (EM). External Moderator shall play a significant role in the moderation of setting and marking to ensure the quality of academic standards are uniformly applied across academic years, semesters & courses in the assessment process and fairness and educational standards are ensured of grades and qualifications awarded.

### ***Duties and Responsibilities of the External Moderator (EM):***

- A. EM shall serve as a mandatory member in the Final Moderation Board in Setting (Final Scrutiny Board) and Final Results Moderation Board (Final Results Board) in the assessment process.
- B. EM shall provide the consent to the final examination papers considering the Assessment Blueprint and relevance to the Programme Learning Outcomes/Graduate Profile of the study programme.
- C. EM shall ensure that difficultness of examination in one course/module is comparable to other courses in a semester, and the examinations in previous years.
- D. EM shall not set or mark papers or award grades to individual candidates.
- E. If the EM considers that the marks /grades allocated are not justified, or there is a dispute between the First & the Second Examiners, the EM shall recommend that,
  - (i) all scripts to be double marked
  - (ii) scripts be remarked by any one of the examiners
  - (iii) adjustments to the marking scheme of the specific question are made
  - (iv) adjustments to the marks/grades be done in a rational manner, and
  - (v) steps be taken to avoid similar instances in future examinations.
- F. EM shall have the right to inspect any step or material of assessments under his/her preview in the assigned semester.
- G. At the end of the examination process, the EM shall certify the following with his/her signature.
  - (i) Examination procedures have been fairly and adequately implemented, and decisions have been made after due deliberations.
  - (ii) Standards of awards and students' performances are comparable to those in equivalent HEIs (within the approved PLOs).
- H. The EM shall be consulted in case of any investigation into any examination malpractice or misconduct by a candidate, an examiner, the supervisor or an invigilator.

- I. The EM shall submit a confidential report to the Dean in the prescribed format (Annexure 8.21) within two weeks from the release of results. If any, the recommendations and concerns shall be addressed by the Dean through respective standing committees, individuals, or the Faculty Board.
- J. In case if the EM does not endorse the examination procedure carried out or the decisions of the Board of Examiners, the matter shall be referred to the Senate through the Faculty Board for a final decision.
- K. The EM shall receive a payment as prescribed by the relevant UGC and University internal circulars.

**Notes on this SOP:**

**Note-1: Definitions** (An extract from the **Policy on Students with Disabilities (SWDs) Policy Number: UoP-P-007**)

**4.1 Disability**

“Any person who as a result of any deficiency in his physical or mental capabilities whether congenital or not is unable by himself to ensure for himself, wholly or partly the necessities of life (Department of Census and Statistics, Census of Population and Housing 2001)”. . It also includes a temporary, permanent, current, past or future disability, and chronic health conditions which may not commonly be considered disabilities

Commonly recognized disabilities include (but not limited to);

- a. Blind/Low Vision
- b. Deaf/Hearing Impairment
- c. Physical and Systematic Disorders Including but not limited to: multiple sclerosis, cerebral palsy, chemical sensitivities, spinal cord injuries, cancer, AIDS, muscular dystrophy, and spina bifida.
- d. Psychiatric/Psychological Disorders: Mental impairment that includes any mental or psychological disorder, such as emotional or mental illness.
- e. Specific Learning Disabilities
- f. Head Injury/Traumatic Brain Injury

**4.2 Chronic Medical Conditions**

A chronic medical condition is one that is persistent or otherwise long-lasting in its effects or a disease that comes with time. It generally cannot be prevented by vaccines or cured by medication, nor do they just disappear.

**Note-2: Reasonable Adjustments (In the Policy on Students with Disabilities (SWDs) Policy Number: UoP-P-007)**

***Reasonable Adjustments***

A person with a disability may require reasonable adjustments in order to ensure equal participation in work or study. The aim of reasonable adjustments is to provide negotiated measures to ensure that students with disabilities have equality of access to education. Such adjustments are not intended to compromise academic standards or to provide an undue advantage to students with a disability. A student must be able to fulfil the inherent requirements to undertake a course of study, unless their inability can be overcome by making a reasonable adjustment. In practice, the principle of reasonable adjustment allows that whenever it is possible, necessary or reasonable to do so, the usual policy or practice will be varied to meet the needs of a person with a disability. Examples of reasonable adjustments include variations to examinations and assessments, provision of adaptive equipment and modifying course delivery methods.

1. The University will make reasonable adjustments to delivery and assessment methods without compromising the academic standards.
2. The adjustment may take the form of an aid, a facility or a service that the student requires because of his or her Disability.
3. Make adjustments to examinations for students with a Disability (including students with chronic medical conditions), to provide students with an equitable opportunity to demonstrate their knowledge and competency for assessment purposes.
4. Alternate arrangements for examinations will be recommended after considering standard practices that redress the impact of a student's disability on their performance in examinations. These may include adjustments such as:
  - a. Extensions of time
  - b. Use of assistive technology
  - c. A separate room
  - d. Use of reader, scribe or computer where necessary
  - e. Use of ergonomic chair
  - f. Alternative formatting of exam papers
  - g. Negotiation of an alternative assessment.
  - h. Any other reasonable adjustments as may be decided time to time.
5. The University will ensure that it has a number of specially adapted rooms on campus for disabled students. Extra consideration will be given if the student has a disability or

medical condition that require them to carry out the activities during their stay at the University.

6. The University will provide resources and staff development opportunities to assist staff to meet the learning and support needs of students with disabilities, including inclusive teaching and learning strategies such as universal design for instruction and assessment practices.

**Note-3: Disclosure of Disability** (An extracted from the **Policy on Students with Disabilities (SWDs) Policy Number: UoP-P-007**)

1. An individual with a disability who does not require any adjustments is not obliged to disclose their disability at any time.
2. An individual with a disability who requires an adjustment is encouraged to disclose their need for the adjustment to the University, with appropriate documentation, as soon as possible.
3. Information regarding the disability, and any adjustments needed, may only be disclosed to the staff on a need-to-know basis. This may include disclosure to teaching staff, supervisors, facilities services, and other staff who may be required to implement the required adjustments. Subject to the above, University staff must treat as confidential and private any disclosure of information concerning a person's disability.
4. Evidence of a disability may be required for appropriate adjustments to be provided.
5. Staff will respect students' rights to confidentiality and decision to disclose personal information.

**Note 4: Further Guidance on Different types of Adjustments**

1. Extension of time: Usually given for student with processing difficulty, mental health issues such as depression, student with some kind of medication which cause slow cognitive processing, students with partially blindness. Standard additional time allocation is 25% of total time. However, depending on the condition the duration can be increased. When examination lasts for more than 3 hours, supervised rest period can be allowed.
2. Use of assistive technology:
3. A separate room: When medical evidence requires a student to be separated from the rest of students, a separate room or venue should be allocated. In some instances, when reader or scribe needs to be provided, a separate room should be allocated.

4. Use of reader, scribe or computer where necessary: When the student is not capable of writing or typing, a suitable person selected by the relevant authority\* should be employed. (\*Dean/HOD/Course Coordinator/FB).
5. Use of ergonomic chair:
6. Alternative formatting of exam papers: Depending on the requirement of students, question papers in large size, with different colours, or a reader reading the questions to students.
7. Negotiation of an alternative assessment: When a student cannot demonstrate their knowledge in a traditional manner. e.g., viva, take-home assessments, providing a range of assessment options.
8. Providing a computer: In exceptional circumstances the use of a computer may be allowed, offering a flexible approach to students with disabilities or injuries.

As per the Policy on Conflict-of-Interest (the Policy), the University is obliged to ensure the highest integrity & accountability in the conduct of all individuals affiliated with it and maintain a high degree of public confidence in all core functions of the University. As a part of this Policy, the University requires those affiliated with the University to disclose any circumstances that could give rise to potential, reasonably perceived or actual conflict-of-interest as those may affect or appear to influence the objectivity and independent exercise of duty/ function of the individual. ***A ‘conflict of interest’ is a conflict between the official responsibilities of a person in a position of trust and any other interests the person may have.*** A perceived conflict of interest exists when interest would not necessarily influence the individual but could result in the individual’s objectivity being questioned by others.

The purpose of this form is to facilitate the disclosure and management of conflicts of interest in accordance with the Policy of the University. This form is designed to be used by university staff members and affiliates to disclose situations with actual, perceived, or potential conflicts of interest that may exist. If it is decided, a conflict of interest management plan must be agreed upon & implemented, as per Section 15 of the Policy. It is the responsibility of the university staff member or the affiliated individual disclosing the conflict to act in accordance with the agreed management plan, including, where necessary, performing a periodic review of the conflict of interest and the management plan and providing additional disclosures if circumstances surrounding the conflict of interest change.

You must disclose on this Declaration of Interests form any financial, professional, employment or other interest relevant to you, your close relatives, intimate partners, friends or associates that will conflict with the objectivity of the official task assigned to you.

Please note that NOT fully completing and disclosing all relevant information on this form may depending on the circumstances, lead the University to review the responsibilities handed over to you by the University.

Faculty Awards and Dean's List

*To All Deans & Directors IQAU*

Considering the importance of inclusion of university students in the Quality Assurance (QA) process of Higher Education Institutes in the global context, a guideline has been developed by the UGC for "Faculty Awards" to be adopted in Sri Lankan State Universities too. The guidelines are stated to select students who perform outstandingly in both academic and extracurricular activities so that they could contribute significantly to the QA process in Universities.

Further, a guideline has been developed to select the students to include in a Dean's List on a semester basis. This was developed considering the academic excellence of the students and to appreciate their academic performance.

The Commission at its 978<sup>th</sup> meeting held on 04.01.2018 granted approval to the guidelines developed on Faculty Awards and Dean's List as given in the annexed document.

Please take necessary action accordingly.
