## About Me

I received my B.Sc. Special Degree in Zoology with First Class Honors from the University of Peradeniya in 2000, and in 2001, I joined the Department of Zoology as an academic staff member. At present, I am a Senior Lecturer (Grade I) in zoology. My master's and doctoral research were carried out in avian ecology, and my current research primarily focuses on bird ecology and conservation. Here at the University of Peradeniya, I teach courses in avian and mammalian biology, wildlife management, and ecology at both the undergraduate and graduate levels. I also serve as the Head of the Department of Environmental and Industrial Sciences.

## Research Interests (Research Fields/ Projects)

Bird ecology and behavior, wildlife ecology.

## Ongoing Research and Projects

### **Bird 10,000 Genomes (B10K) Project**

The Bird 10,000 Genomes (B10K) Project is an initiative to generate representative draft genome sequences from all extant bird species. In collaboration with the University of Copenhagen, Denmark, the B10K project in Sri Lanka aims to investigate the avian genomics of endemic birds of Sri Lanka.

### **Survey of key birding areas in the Northern Province of Sri Lanka for ecotourism development.**

This research is directed towards measuring avian species diversity of the Northern Province, finding the distribution of avian specialties in the Northern Province, and finding potential areas suitable for avitourism in the Northern Province of Sri Lanka.

### **Ornithological Impact Assessment of the proposed 2x10 MW wind power project in Thanankilappu-Chavakachcheri area in the Jaffna Peninsula.**

## Key Publications

Ecosphere - (2018)

Divergence of morphological characters in two white-eye species (Passeriformes: Zosteropidae) in sympatry

Ceylon Journal of Science - (2017)

Diversity and conservation of waterbirds in the northern avifaunal region of Sri Lanka.
